KRIEGHOFF HUBERTUS
SINGLE SHOT RIFLE

THE KRIEGHOFF HUBERTUS

In the Elegant Tradition of the European Mountain Rifle

It has the pristine elegance of the traditional European mountain rifle. It has the versatility and reliability that are the hallmarks of a Krieghoff. And it carries the name of the patron saint of the hunter – evoking the ethic of the Alpine hunter for whom the essence of the hunt is the arduous trek through the mountains that culminates in a single well-placed shot.

The Krieghoff Hubertus is a single shot that is light and compact, sleek and easy to carry. It is a break-open rifle and can be stowed in a rucksack or soft case for protection and to free up the hands while biking or climbing.

The Hubertus is built on a strong forged action that features the innovative Krieghoff Kickspanner, the unique manual cocking device that provides the ultimate in rifle safety. When you are ready to fire, you cock the rifle with a single smooth movement of the cocking device, which is located on the top tang, in the position usually occupied by a conventional safety. Otherwise the Hubertus may be carried with the hammer uncocked – the very safest position. Since the hammer is not cocked, there is no chance of an accidental discharge caused by a worn safety catch or by dropping a cocked gun.

The Hubertus is available in metric and American calibers ranging from .222 to 9.3x74R. And all Hubertus barrels can be fitted to any Hubertus action, providing a level of versatility that is second to none.

The solid rib is designed for the installation of detachable European Pivot Mounts available from Krieghoff.

This unique Krieghoff Hubertus with sideplates is a brilliant rifle, the product of modern, innovative firearms design and manufacture that is embellished and finished to the highest standards of the gunmaker's art. It features a 60cm (23.5") octagonal barrel, hand filed contoured receiver and fences, and a beautiful nitride coin finish. The buttstock and forearm are made by hand of the finest exhibition grade Turkish walnut, and rosewood caps decorate both the pistol grip and forearm tip. The stock has a Bavarian cheekpiece with double shadow line and an 'Old English' Decelerator recoil pad. The wood is finished in lustrous hand rubbed oil.

Krieghoff Hubertus with option package "Small Arabesques".

Krieghoff Hubertus with optional short barrel length of 55cm (21.5") and bundled option package "Small Game Scene".

A specially stylish feature is the optional octagonal barrel available for the Krieghoff Hubertus (Dural or steel receiver) in calibers 6.5x57R, 6.5x65R, 7x57R, 7x65R, .308 Win., .30-06, .30R Blaser.

Approximate weight:

2.6 – 3.3kg (5 ¾ - 7 ¼ lbs) depending on Dural or steel, barrel length, and caliber.

Custom engraving "Old English with Bouquet" featuring a deeply engraved rose bouquet in the center of each side.

Custom engravings, sideplates, and upgraded wood are all available options.

*The Hubertus is available in the following U.S. calibers: .222 Rem., .22-250 Rem., .243 Win., .270 Win., .308 Win. *, .30-06**

European calibers: 5.6x50R Mag, 5.6x52R, 6x70R, 6x62R Freres, 6.5x57R, 6.5x65R*, 7x57R*, .30R Blaser*, 7x65R*, 8x57JRS, 8x75RS, 9.3x74R*

Magnum calibers: 7mm Remington Magnum, .300 Winchester Magnum

Calibers marked with an asterisk () are also available with an optional octagonal barrel.*

Standard barrel length is 23.5" (60cm) and the rifle weighs from 5 ¾ to 7 ½ lbs. depending on the caliber and type of action.

For further information, please request the 16-page Hubertus main catalog. You may also find information on our website www.krieghoff.com.

Master engraver Gregor Stoegner created a one-of-a-kind alpine game scene in deep relief. Shown here on the left side of the receiver is the vivid image of does watching the dominant red stag chasing a rival out of his territory. All figures are framed by fine English Arabesques and leaves. These elegant images are drawn together and complemented by the addition of a pierced top lever and intricate stock carving.
