

THE K-20

The newest addition to the Krieghoff Family

The K-20 is a sporting, skeet, and field shotgun built on an elegantly compact twenty gauge frame. It is endowed with the crisp triggers and overall feel of the K-80 and finished with the handcrafted precision that you expect from a Krieghoff. It is a gun that anyone who appreciates the pleasures of the small gauges will have to have, and it is available with the complete range of engraving patterns shown for the K-80.

THE K-20: THE NEWEST ADDITION TO THE KRIEGHOFF FAMILY

The K-20 has been conceived and designed with the small gauge and casual sporting shooter, the three gauge skeet shooter, and those who shoot birds south of the border in mind. It is beautifully balanced and quick handling, but it has enough weight to absorb recoil and swing smoothly even at the end of a long day on the course or in the field.

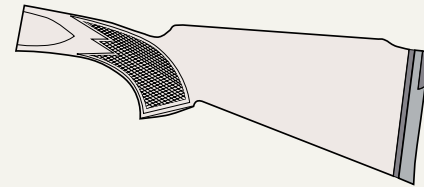

The K-20 incorporates all of the technical refinements made in the K-80 over the years and shares all of its technical features adapted to the smaller receiver. Its most exciting feature, however, is not a new one at all but harks back to the Model 32 and early K-80s. The K-20 can be fit with 28 gauge and .410 barrels to make a two or three barrel set for competition, bird shooting, or pure small bore enjoyment!

All barrels are either 28" or 30" and have the tapered flat sporting rib and factory choke tubes.

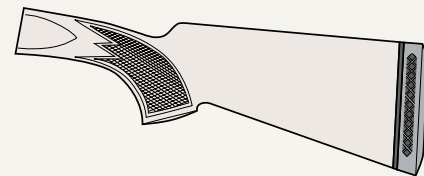

There are two stocks available for the K-20, the classic #3 Sporting/International Skeet stock and the new #9 Skeet/Field stock, which is slightly higher and with no Monte Carlo effect. All K-20s are fitted with a Schnabel forend and are delivered in a one, two, or three barrel aluminum case.

K-20 stocks and forearm

#3 Sporting/International Skeet stock
Length of Pull 14-3/8"
1-1/2" x 2-1/8" x 2-5/8"

#9 Skeet/Field stock
Length of Pull 14-1/8"
1-3/8" x 2"

#VII Schnabel forearm
1-4/5" x 1-3/4" x 10"
