HUNTING GUNS
“Traditionally among the best.”
THE NEW KRIEGHOFF

Not many family-owned companies can look back on a history of five generations. What our ancestors started in 1886 continues to evolve. Our passion for hunting and technical perfection is what creates and reinforces the bonds between the generations. It continues to this day.

**STEPS TO SUCCESS**

**COMPETENCE. EXPERIENCE.**

- **1986**
  - Founding of Krieghoff International Inc. in the USA by Dieter Krieghoff.

- **1980**
  - The K80, the successor to the K32, is presented. After completing his studies, Dieter Krieghoff begins marketing Krieghoff shotguns in the United States.

- **1976**
  - Donald Halderman (USA) wins gold in the Montreal Olympics.

- **1970**
  - Heinz-Ulrich Krieghoff takes over the management of the company.

- **1966**
  - Kenneth A. Jones becomes trapshooting world champion with his Krieghoff K-80.

- **1960**
  - The company moves to its current production site in Ulm, Germany.

- **1957**
  - Krieghoff presents its first competition shotgun: the K-32.

- **1950**
  - After the end of the Second World War Krieghoff makes a fresh start with 13 employees in Ulm.

- **1925**
  - Krieghoff introduces lightweight Dural as a gunmaking material.

- **1924**
  - The “Sempert & Krieghoff” and “Heinrich Krieghoff” firms are merged under the management of Heinrich Krieghoff.

- **1922**
  - Heinrich Krieghoff (Ludwig Krieghoff’s son) founds the company “Heinrich Krieghoff,” also in Suhl.

- **1920**
  - Ludwig Krieghoff and one partner establish the „Sempert & Krieghoff” gun factory in Suhl, Germany.

- **1886**
  - Ludwig Krieghoff and one partner establish the „Sempert & Krieghoff” gun factory in Suhl, Germany.

- **1900**
  - “You shoot with the barrel – you hit with the stock” (“Die Läufe schießen - der Schaft trifft”®): Ludwig Krieghoff’s motto inspired the patented Krieghoff custom stock method.

- **1919**
  - The “Sempert & Krieghoff” and “Heinrich Krieghoff” firms are merged under the management of Heinrich Krieghoff.

- **1916**
  - Heinz-Ulrich Krieghoff takes over the management of the company.

- **1910**
  - Krieghoff becomes an official partner of the 50th ISSF World Championship and from this time forward enjoys great success in Olympic shooting sports.

- **2000**
  - With the K-20, Krieghoff presents the little sister of the K80.

- **2007**
  - The pioneering in-line repeating system of the Krieghoff Semprio makes its debut at the IWA.

- **2002**
  - The Optima drilling is launched.

- **2009**
  - Phil Krieghoff is appointed managing director of H. Krieghoff GmbH.

- **2016**
  - Contestants using Krieghoff guns win two Olympic medals.

- **2010**
  - Krieghoff becomes an official partner of the 50th ISSF World Championship.

- **2009**
  - Phil Krieghoff is appointed managing director of H. Krieghoff GmbH.

- **1993**
  - The Classic double-barrel riffl e is presented at the IWA.

- **1992**
  - Krieghoff’s Combi-Cocking Device and Universal Trigger system (UAS) are introduced and patented.

- **1986**
  - Founding of Krieghoff International Inc. in the USA by Dieter Krieghoff.

- **1886**
  - Ludwig Krieghoff and one partner establish the „Sempert & Krieghoff” gun factory in Suhl, Germany.
Our founder Ludwig Krieghoff was already a pioneer in his day. His insight that “you shoot with the barrel – you hit with the stock” ("Die Läufe schießen - der Schaft trifft") setting Krieghoff’s niche led to the patented Krieghoff custom stock method. The unbridled creative force that drives all Krieghoff generations enabled milestones that have made the company what it is today: a manufacturer of rifles and shotguns made with passion.

**TRADITION. INNOVATION.**
More than half of all Krieghoff employees are hunters or sport shooters; so they know what really matters.

Modern manufacturing technology does not always produce optimal results. At Krieghoff the most appropriate technology is used in production.

More information on barrel options can be found on pages 22–23, 51 and 62–63.

“Only the trained eye of the barrel maker ensures a perfect result.”
The wisdom of Ludwig Krieghoff ("Die Läufe schießen - der Schaft trifft") is just as sound today as it was a hundred years ago. Then as now, a plain piece of wood undergoes a 16-step process during its transformation into a flawless, custom-made stock.

"YOU SHOOT WITH THE BARREL – YOU HIT WITH THE STOCK."

The wisdom of Ludwig Krieghoff ("Die Läufe schießen - der Schaft trifft") is just as sound today as it was a hundred years ago. Then as now, a plain piece of wood undergoes a 16-step process during its transformation into a flawless, custom-made stock.

"Custom crafting and fitting by hand ensures a perfect point of impact."
Since the beginning of time, engravers have artistically enhanced firearms to give them character and value. Whether you choose one of our many engraving patterns or a completely custom engraving, our engravers will make your Krieghoff eternally unique.

More information on engraving and finishing options can be found on page 79. Engraving galleries can be found on pages 30–31, 42–43, 54–55, 66–67 and 71. Further examples can also be found at www.krieghoff.de/engraving.

“The engraving expresses the owner’s personality and individuality.”
OPTIMA: THE DRILLING FOR THE 21ST CENTURY

- Hair trigger in front trigger
- Universal trigger system
- Combi-Cocking device
- Steel trigger guard
- Ready to accept bridge pivot mount
- Suitable for loading steel shot depending on chocke and receiver material
- Removable sling swivels
- Steel trigger plate (with steel receiver)

OPTIMA STANDARD FEATURES
- Nickel-plated receiver
- Border engraving
- Blued hinge pin, top lever, cocking slide and trigger guard
- Standard wood grade
- Right-handed stock with Bavarian cheekpiece
- Schnabel-style forearm
- Supplied in a Krieghoff GunPack

OPTIMA 12 DRILLING
- The Optima 12 drilling system allows for a standard side rib drilling with insert barrels.

OPTIMA 20 DRILLING
- The Optima 20 drilling system allows for a standard side rib drilling with insert barrels and Optima Big Five barrels.

- Twin-hammer drilling with the exceptionally smooth Combi-Cocking device and Universal trigger system (UAS).
- Different variants available: double trigger, single trigger, custom trigger.
- Steel shot proofing optional.
- Choice of TS barrel or soldered barrel.
- Insert barrels in big game calibers possible.
- Double-rifl e drilling also available in big game calibers.

- Twin-hammer drilling with the Combi-Cocking device and Universal trigger system.
- Different variants available: double trigger, single trigger, custom trigger.
- Steel shot proofing optional.
- Choice of TS barrel or soldered barrel.
- Insert barrels in big game calibers possible.
- Double-rifl e drilling also available in big game calibers.

- Receiver size 12 or 20.
- Receiver material: steel for 12 gauge, steel or dural for 20 gauge.
- Optional side plates.
- Choose your standard engraving, or have our engravers use your own design.
- Inspiration for custom engravings can be found on pages 30 – 31.

- Available in barrel lengths of 55 cm (21.5”) and 60 cm (23.5”), available as regular drilling or double rifl e drilling.
- Barrels offered in the following page.

- A large selection of insert barrels is available.
- Designed for easy installation of a Bridge Pivot Mount.
- Includes manually folding rear sight as standard feature.

- Rifl e calibers ranging from 6.5 mm to 9.3 mm.
- Up to .470 N.E. for Optima “Big Five”.

Available gauges: 12 / 76 or 20 / 76.

Optima 20 drilling, Thermo Stable (TS), with false side rib, engraved with “Large game scene with oak leaves”, wood category 4.

Optima 12 drilling, Thermo Stable (TS), with false side rib, engraved with “Large game scene with leaf arabesques”, wood category 3.
BARREL TYPES/
INSERT BARREL

Drilling barrel sets available with a length of 55 cm (21.5”) or 60 cm (23.5”). Optional soldered or thermally stable. Available shotgun caliber: 12/76, 20/76
Rifle caliber: 6,5x57R, 6,5x65R, 7x65R, 7x65R. 308 Win., .30-06, .308 Blaser, 8x57RS, 8x76RS, 9,3x74R

Double rifle drilling available with a length of 55 cm (21.5”), soldered, with muzzle adjustment. Available shotgun caliber: 20/76
Rifle caliber: 7x57R, 7x65R, 308 Win., .30-06, .308 Blaser, 8x57RS, 8x76RS, 9,3x74R

“Big Five” double rifle drilling calibers:
375 H&H Mag., .350/400 N.E., .500/.416 N.E. (3 1/4”), .470 N.E.

The Optima 20 drilling can be converted in a few easy steps into a genuine double rifle drilling or Big Five double rifle drilling by using interchangeable barrel sets, which can be retrofitted at any point in time.
Insert barrels can be removed and re-inserted with perfect fitting by our gunsmiths at the hunter’s request without changing the point of impact.

THE GENUINE DOUBLE RIFLE DRILLING

Perfect for driven hunts. A „genuine“ double rifle drilling: sleek, responsive, accurate. The muzzle adjustment integrated in the sight base makes it easy to adjust the barrels without re-bluing or resoldering.
Exquisite craftsmanship from the finest gunsmiths for maximum versatility: the combination of side-by-side shotgun and rifle probably make the drilling the greatest all-round hunting gun ever. Krieghoff has more than 130 years of experience and expertise in the manufacture of this noble gun and a long history of successful innovations.

FEATURES AND TECHNICAL OPTIONS

Exquisite craftsmanship from the finest gunsmiths for maximum versatility: the combination of side-by-side shotgun and rifle probably make the drilling the greatest all-round hunting gun ever. Krieghoff has more than 130 years of experience and expertise in the manufacture of this noble gun and a long history of successful innovations.

COMFORTABLE RESPONSIVE SHOOTING

The front trigger of the Optima is equipped with a set trigger. A set trigger is also available as an option for the rear trigger. For optimal comfort, an automatic set trigger release is available on request. This device disengages the set triggers automatically when uncocking the gun and prevents involuntary setting of the triggers while uncocked.

DRILLING TRIGGER

With the classic trigger of the Optima drilling, the front trigger fires either the lower barrel or the right barrel. The rear trigger operates the left barrel. Additionally, with the Optima drilling the front trigger is equipped with a hair trigger.

KRIEGHOFF ONE-TWO TRIGGER

Quick and universal. The front trigger is configured as a single trigger that sequentially fires the lower/right barrel, or right/left barrel, depending on the position of the selection lever.

KRIEGHOFF ONE-TWO SPECIAL TRIGGER

The ideal trigger for the double rifle drilling. The front trigger is configured as a single trigger for both rifle barrels and the rear trigger fires the lower barrel. The selector is not required with this trigger system.
ALL-ROUNDER
FOR DRIVEN HUNTS

“For me, the individuality combined with the two 8x57 IRS rifle barrels of the same caliber and the 20/76 shotgun barrel make the Optima double-rifle drilling a unique all-rounder. Thanks to the meticulously balanced weight and the resulting linear oscillation, precise shots hit their target even without the use of rests. Krieghoff’s unique combination of tradition and innovation give the Optima its unparalleled reputation as a superb hunting gun in every situation.”

Jorgina Pein
ENGRAVINGS

Take a look at our selection of catalog engravings and custom engravings. One example of the unlimited possibilities is shown below: exquisitely crafted hunting scenes in deep relief, framed tastefully in gold and finished with fine English style scroll. Intricate wood carvings on the stock completes the picture.

Further examples can also be found at www.krieghoff.de/engraving
HUBERTUS: THE JOY OF SIMPLICITY

HUBERTUS STANDARD FEATURES
- Trigger with hair trigger
- Universal trigger system
- Combi-Cocking device
- Steel trigger guard
- Removable sling swivels
- Ready to accept bridge pivot mount
- Nickel-plated receiver
- Steel trigger plate (with steel receiver)

HUBERTUS SINGLE SHOT RIFLE
- Various Calibers and engraving options available in addition to the standard offering.
- Weight approximately 2.5 – 3.2 kg
- Weight, magnum caliber: approx 2.9 – 3.2 kg
- Standard amenities include:
  - Border engraving
  - Right-handed stock with Bavarian cheekpiece and recoil pad
  - Schnabel-style forearm
  - Removable sling swivels

HUBERTUS SINGLE SHOT RIFLE WITH OCTAGONAL BARREL
- Various Calibers and engraving options available in addition to the standard offering.
- Weight: approximately 2.6 – 3.3 kg
- Weight, magnum caliber: approx 2.9 – 3.2 kg
- Various Caliber and Engraving options available in addition to the standard offering.
- Standard or magnum caliber available.
- Ranging from 5.6 mm to 9.3 mm can be selected.
- Standard or magnum caliber available.

HUBERTUS: THE JOY OF SIMPLICITY

Figure: Krieghoff Hubertus single-shot rifle, steel receiver with nitride surface finish, standard engraving “Fine English scroll with roses.”

Figure: Krieghoff Hubertus single-shot rifle with octagonal barrel, pistol grip cap and stock. Especially elegant model with side plates, special engravings with thistle foliage ornamentation and exclusive stock wood.

Various Calibers and engraving options available in addition to the standard offering.

Ready to accept bridge pivot mount.

Choose your standard engraving, or have our engravers use your own design. Inspiration for custom engravings can be found on pages 42 – 43.

Receiver material: steel or Dural/Optional side plates.

The perfect barrel for the perfect shot.
THE OCTAGONAL BARREL

The octagonal barrel gives the Krieghoff Hubertus an elegant, traditional look. This barrel contour is available in selected standard calibers and lengths of 55 cm and 60 cm.

STOCK MAGAZINE

This additional accessory is one of the most popular extras for single shot rifles, storing spare cartridges close at hand. The stylish cover with matching engraving is a genuine showpiece.

MUZZLE THREAD

Depending upon the design, the Krieghoff Hubertus can also be provided with a muzzle thread for the use of a silencer. When not in use, the thread is hidden and protected by a cover that fits into the contour of the barrel.

SCOPE

Krieghoff Hubertus express-style rib is silver soldered, providing a reliable and solid base for a scope mount. Even with frequent detach and reattach, the point of impact does not change. The bridge pivot mount also permits several different scopes to be used for the same gun without any problems. Users have a choice of mounting scopes with either rails or rings.

TECHNICAL FEATURES & OPTIONS: PERFECTION IS ESSENTIAL.

For us, as hunters and shooters, a single shot rifle is always something very special: its simple beauty and versatility makes it the rifle for those precious moments in our lives that call us to the hunt.
AT HOME IN NATURE AND ON THE HUNT

My name is Sabrina Bloch. I come from Switzerland and have hunted all my life. For me, nature is not just a place and hunting is not merely a hobby – it’s where I’m at home. When I’m stalking game with my Krieghoff Hubertus, I am especially close to nature. Every shot has to count. Perfection is essential.

Sabrina Bloch
Perhaps the appeal of designing every single detail with the utmost care lies within the limitations of the single barrel. With beautiful wood and fine engravings, the Krieghoff Hubertus invites us to turn our dreams into reality and to revel in the joy of the extraordinary.

**ENGRAVINGS**

This exclusive piece - the „Gun of the Year 2013“ - is a Krieghoff Hubertus single shot rifle, .270 Win. caliber. The single shot rifle with ‘Facon Exclusive,’ exclusive stock wood, elegant hand-crafted stock and hand-polished finish, features a masterful engraving on the side plates, with African wildlife and details in yellow and green gold.

**Figures:**

- Custom engraving: „Border engraving with inlaid gold lines on the breech end of the barrel, blued“
- Custom engraving: „Fine English“
- Catalog engraving: „Small game scene with leaf arabesques“
- Custom engraving: „Border engraving in silver with side plates, blued thistle flower in gold and silver on the top lever“
- Further information on Engravings can be found at www.krieghoff.de/engravings
CLASSIC DOUBLE RIFLE

The world-renowned double shotgun provides additional ways to carry the Classic. The excellent balance and familiar handling of the gun ensure hunting success.

Shotgun caliber: 20 / 76
Barrel length: 71 cm (28”)
Weight: approx. 2.9 – 3.1 kg

THERE’S ONLY ONE CLASSIC

• Comb-Cocking device and universal trigger system
• Solid breach
• Easily accessible chamber
• Muzzle adjustment
• Optional Intelligent Ejector System (IES)
• Optional single trigger

CLASSIC STANDARD FEATURES

• Steel receiver
• Universal trigger system
• Combi-Cocking device
• Steel trigger plate (with steel receiver)
• Removable sling swivels
• Nickel-plated receiver
• Standard border engraving
• Blued hinge pin, locking lever, cocking slide, and trigger guard
• Standard summertone

Optional side plates./

Available in barrel lengths of 70 cm (27.5”) and 80 cm (31.5”)

Combi-Cocking device can be found in the following pages.
African adventure: The double rifle is traditionally the first choice in the hunt for the “Big Five,” with the instant availability of a second round as life insurance against dangerous wildlife. In principle, it combines two fully independent weapons in one timeless classic.

The standard sight for the Classic “Big Five” is a wide V-shaped rear sight (with a white, vertical insert) and front bead sight. A “Super Express” folding sight with standard sight and two folding rear blades is also available as an option. This type of sight is not only a stylistically appropriate detail for a safari rifle, but also has practical advantages when shooting over the notch and bead.

Large calibers are of course also noted for their greater recoil. The weight of the Classic and Classic “Big Five” guns is always matched to the respective caliber. The BreakCD recoil reducer noticeably reduces recoil and can also be retrofitted.

BARREL SETS FOR THE CLASSIC
Krieghoff’s “side-by-side” concept offers maximum flexibility. Every barrel configuration - double rifle, shotgun, or double shotgun - can be inserted into any Classic. This is true even for interchangeable barrels in big game calibers. The receiver can be equipped with different types of barrels and used for a wide range of hunting situations.

INTELLIGENT EJECTOR SYSTEM
Sometimes a fraction of a second determines hunting success.

Eject or extract: Krieghoff’s “intelligent” ejection system allows an intuitive way out of the situation. If the cocking slide is in the forward position, the ejector throws the spent cartridge out; the gun can be reloaded and is instantly ready to fire. If the cocking slide is pushed to the back, the ejector pulls the spent cartridge out and the gun can be silently reloaded.

The functions can be adjusted without any tools or awkward handling. Simple thumb pressure on the cocking slide is used to control the process: quickly, easily and absolutely safely.
IMPRESSIVE IN EVERY ASPECT

It is the Krieghoff combination of craftsmanship and innovative technology that has always fascinated me. The consistently precise shooting, the reliability, and the safety of the gun prove to me on a daily basis that I have one of the best.

Henrik Lott
The engravings for the Classic are tastefully tailored to the slim receiver of this fine rifle and paired with corresponding high-quality walnut wood in the stock.

**Catalog engraving:**
"Big Game"

**Custom engraving:**
"Animal scenes crafted in the bulino style, partly inlaid in gold. Framed by fine foliage ornamentation."

**Catalog Engraving:**
"Safari Scroll 1"

Further information on Engravings can be found at www.krieghoff.de/engravings
ULTRA 20: PASSION AND PERFECTION

ULTRA STANDARD FEATURES
- Full flexibility from the twin hammer Combi-Cocking device
- Optional steel shot proofing
- Choice of Thermo Stable (TS) barrel set or soldered barrel set
- Insert barrels in big game calibers possible
- Single trigger for over-and-under double rifle

ULTRA 20 OVER-AND-UNDER DOUBLE RIFLE
The classic configuration for woodland deer, driven hunts, or the stalk abroad. Weight: approx. 3.2–3.9 kg

ULTRA 20 TWO CALIBER RIFLE/RIFLE COMBINATION
The "mixed double" with small and large caliber for passionate rifile specialists. Weight: approx. 3.1–3.8 kg

OVER-AND-UNDER COMBINATION RIFLE/SHOTGUN
The most frequently used combination for everyday hunting. The Ultra 20 demonstrates just how much flexibility and adaptability can be expected from a modern over-and-under gun. Weight: approx. 2.7–3.6 kg
The standard Ultra 20 comes with border engraving, recoil pad, right-handed stock with “Bavarian cheekpiece”, Schnabel-style forearm, and removable sling swivels. The Ultra 20 can be modified to perfectly suit personal preference by choosing from a long list of additions and options.

**BARREL OPTIONS**

The universal barrel set options for the Ultra:
- Two-caliber rifle/rifle combination “Bergstutzen” and over-and-under combination rifle/shotgun, with or without Krieghoff “KS” insert barrel
- Two-caliber rifle/rifle combination “Bergstutzen” and over-and-under combination rifle/shotgun, with or without Krieghoff “KS” insert barrel

With the thermally stable Ultra 20 “TS” barrel set, torque caused by barrel heat up is no longer an issue. No climbing occurs and the point of impact remains constant even after several shots.

Another advantage over soldered barrels is the ease of regulating the barrels when changing ammunition or if the point of impact of the rifle barrel has to be adjusted to the point of impact of a slug from the shotgun barrel.

The steel cosmetic side rib gives Thermo “TS” Stable barrel sets a traditional appearance.

Regulating the barrels is easily accomplished by using the three-point radial adjustment for the “TS” barrel set.

Another design strength of Krieghoff “KS” insert barrels is the separate, full performance extractor, which simply replaces the standard extractor. This makes handling easy, quick and safe.
A GENUINE, UN-COMPROVISIONG ALL-ROUNDER

My name is Rebecka Bergkvist and hunting is my passion. After I became the world champion and world runner up in sporting clays in 2016 and 2017 using my competition shotgun, the Krieghoff K-80, I decided it was time to stop compromising in hunting. In Sweden, where I am from, there is a long tradition of rabbit, fox and deer hunting. My Krieghoff Ultra combination rifle/shotgun is absolutely brilliant in this regard, and with the .30-06 caliber it is simply superb. I can hunt anything from rabbits to elk with one gun. My faithful Münsterländer “Selfe” and my Ultra are genuine all-rounders and accompany me on every hunt.

Rebecka Bergkvist
CUSTOM ENGRAVINGS

You can let your imagination run wild when customizing an Ultra 20. The engravers and stockmakers at Krieghoff are experts at making dreams – both big and small – come true.

The entire spectrum of Krieghoff options is also available for the Ultra 20. The examples shown here underline the harmonious overall statement made by the engravings and the matching high-quality grade of wood used for the stock.

The photos show a fine Ultra 20 TS over and under combination rifle/shotgun with side plates, Facon Exclusive contouring and nitride receiver finish. The game scene engraving in relief is framed by English arabesques. Gold inlays grace the breech end of the barrel. The handcrafted stock with fine checkering is framed in English arabesques. The elaborate artwork extends to small features such as the pistol grip cap, cocking slide and forearm catch.

Further information on Engravings can be found at www.krieghoff.de/engravings

Luxurious, full coverage ornamentation with deep relief oak leaves. The top tang and underside of the receiver, trigger guard and top lever are also elaborately engraved.

Catalog engraving: „Hand-engraved arabesque motif on both sides.”

Catalog engraving: „Large game scene with oak leaves.”

Catalog engraving: „Small game scene with oak leaves.”

Catalog engraving: „Large game scene with oak leaves.”

Catalog engraving: „Small game scene with oak leaves.”

Engravings

The photos show a fine Ultra 20 TS over and under combination rifle/shotgun with side plates, Facon Exclusive contouring and nitride receiver finish. The game scene engraving in relief is framed by English arabesques. Gold inlays grace the breech end of the barrel. The handcrafted stock with fine checkering is framed in English arabesques. The elaborate artwork extends to small features such as the pistol grip cap, cocking slide and forearm catch.

For almost 100 years now the Krieghoff Trumpf three-lock drilling has been the epitome of traditional gunsmithing craft with a fascinating aesthetic appeal. Once you’ve picked up a Trumpf, you’ll never put it down. After all, generations of hunters have loved our Blitz lock drilling with separate manual cocking device for the rifle barrel.

**TRUMPF DRILLING: A REAL CLASSIC**

TRUMPF DOUBLE RIFLE DRILLING

- 20 gauge shotgun barrel,
- Engraving “Small game scene with oak leaves”
- Weight: 3.9 kg

TRUMPF DRILLING

- Trumpf drilling, 12 gauge, soldered barrel sets, standard engraving “Small Arabesques”.
- Weight: approx. 3.1 – 3.7 kg

**TRUMPF STANDARD FEATURES**

- Genuine three-lock drilling
- Self-cocking firearm with separate rifle cocking mechanism
- Hair trigger in front trigger
- Universal Trigger system
- Steel trigger guard
- Removable sling swivels
- Ready to accept pivot bridge mount
- Suitable for loading steel shot depending on choke and receiver material

**TRUMPF STANDARD FEATURES**

- Steel trigger plate [with steel receiver]
- Nickel plated receiver
- Standard border engraving
- Blued hinge pin, top lever, cocking slide, and trigger guard
- Standard stock wood
- Right-handed stock with „Bavarian cheekpiece”
- Schnabel-style forearm
- Supplied in a Krieghoff GunPack

Rifle caliber: 6.5x57R, 6.5x65R, 7x64R, 7x65R, 308 Win., 30-06, 30R Blaser, 8x57RS, 8x78RS, 9,3x74R

TRUMPF STANDARD FEATURES

- Steel trigger plate [with steel receiver]
- Nickel plated receiver
- Standard border engraving
- Blued hinge pin, top lever, cocking slide, and trigger guard
- Standard stock wood
- Right-handed stock with „Bavarian cheekpiece”
- Schnabel-style forearm

Once you’ve picked up a Trumpf, you’ll never put it down. After all, generations of hunters have loved our Blitz lock drilling with separate manual cocking device for the rifle barrel.
Our completely handcrafted guns testify to a mastery of the classic art of gunmaking that is rarely encountered today. The entire repertoire of this ancient craft is on display here: from the border decoration on the barrels to the flawless stock and the meticulous engravings. The guns created in this manner make the hearts of connoisseurs beat faster and reflect a knowledge of the history of hunting weapons that is seldom found today. The art of gunmaking as a link between the most sophisticated technology and the finest esthetics defines the philosophy behind this gun.

ENGRAVINGS

The steel receiver of the three-lock drilling is made from high-strength chrome molybdenum steel.

Trumpf drilling, 20 gauge.

Hand-engraved arabesque motif on both sides.
A CUSTOMIZED GUN FOR EVERY SITUATION

Where do you use your Krieghoff? Whether stalking, in a blind, searching for wounded game, or on a driven hunt, we can advise you and produce a customized weapon tailored precisely to your needs.

“Always the perfect weapon.”
KRIEGHOFF VERSATILITY CONCEPT

Anyone who understands the practical aspects of hunting knows what to expect from the technical features of a hunting gun. Any hunting scenario demands full concentration. Being ready to fire immediately and maintaining utmost safety are mere fractions of a second apart. The gun’s handling must therefore be straightforward and intuitive - never distracting or difficult.

KRIEGHOFF UNIVERSAL-TRIGGER SYSTEM:

(Optima, Ultra, Classic, Hubertus and Trumpf)

Firing quickly and intuitively to hit the target: hunting situations demand rapid, reliable responses. Only an optimized trigger enables you to make the most of every opportunity. A trigger pull weight being too heavy compromises accuracy. If the trigger pull weight is too low, inadvertent firing is a risk, due to icy fingers that have lost their feeling during a driven hunt in winter, for example. Krieghoff’s Universal Trigger System is set to release cleanly and precisely at 1200 - 1500 grams, without the risk of doubling. Precisely hitting the target over long distances demands a stable rest, a steady pulse and a trigger that releases precisely and with minimum resistance. That’s why the Krieghoff Universal Trigger System includes a hair trigger.

Krieghoff’s hair trigger feature is optional for the rear trigger on guns with double triggers. The optional automatic hair trigger release makes safe handling even easier. To uncock the gun, move the cocking slide to the rear position and it automatically releases the hair trigger.

KRIEGHOFF COMBI-COCKING DEVICE:

(Optima, Ultra, Classic, Hubertus as well as bottom barrel of Trumpf)

An uncocked gun is a safe gun. Every Krieghoff has a Combi-Cocking Device and can be carried safely with its hammers uncocked. Just before a shot is fired, the ergonomically designed cocking slide is pushed forward with a smooth, practically noiseless motion. The gun is now cocked and ready to shoot. If the shot is not fired, you can uncock the gun again simply by pushing the cocking device all the way forward and letting it slide back. If the cocking slide is left in the forward position, the gun is automatically re-cocked upon opening, the same as on a self-cocking firearm. After the gun is reloaded and closed, it is ready to be fired immediately. Krieghoff’s Combi-Cocking Device offers important advantages without compromising safety when fast shooting is required, as when hunting driven European big game.

PERFECT VERSATILITY

The optimal trigger functions reliably and safely in every situation. Its easy handling enables precise shooting. The high-quality trigger system is distinguished by the perfect combination of a crisp trigger and a hair trigger.
WELCOME TO THE KRIEGHOFF FAMILY

Once a Krieghoff, always a Krieghoff. Even after decades we are still with you all the way. We can even service, repair and preserve models we no longer make. The purchase of a Krieghoff offers continuity, reliability and durability.

MAINTENANCE SERVICE

Regular maintenance of your quality products from Krieghoff ensures that you can rely 100% on the reliability and safety of your gun even after many years of use. You will find detailed information on our website at: www.krieghoff.de/maintenance-service

HUNTING GUNS WITH INNOVATIVE TECHNOLOGY
The original Krieghoff gun service
HANDCRAFTED AND CUSTOMIZED STOCKS

A handcrafted stock is defined as a stock that has been manually produced to the largest extent (with only partial mechanical preprocessing), including the comb and/or forearm, from the original blank. Special wishes concerning the stock design (special stock shape, deviations from the standard length, etc.) generally require manual processing of the standard stock shape or a customized stock. In such cases, a personal fitting is essential. Our experienced stock makers ensure that your stock fits you perfectly, enabling you to confirm the truth in Ludwig Krieghoff’s old saying: “You shoot with the barrel – you hit with the stock” (“Die Läufe schießen – der Schaft trifft”).

ENGRAVING AND FINISHING

There are numerous possibilities for finishing your Krieghoff. Optional side plates and pistol grip caps can be engraved according to your wishes just like barrels, stocks, trigger guards, and cocking slides. In addition, the stock wood, the barrels, and all exterior metal parts can be treated with various surface finishes.

INTERCHANGEABLE AND INSERT BARRELS

Our factory can reliably and accurately make technical changes to your Krieghoff, assemble interchangeable barrels, or fit insert barrels. Currently, steel shot proofing for shotguns is of particular interest. If desired, we can install interchangeable chokes as well. Naturally, all government proofing will be arranged, when required.

SCOPE MOUNTS AND SIGHTING-IN

Our service offering includes mounting scopes and sighting-in two elements that are of key importance to the shooting performance of a hunting gun. Stock, barrel, mount, ammunition: all of these components not only directly influence shooting performance, but they also interact with one another.

ABSOLUTELY UNIQUE

Exclusive finishing showcases the gunsmith’s fine craftsmanship to perfection and brings the weapon to life. Ties, folds, and tips that are carved, honed, or hammered by master craftsmen dignify a special hunting weapon and create a timeless treasure that will be passed from generation to generation.
ESSENCIA
IN A CLASS OF ITS OWN
Side lock shotguns - a true highlight for lovers of tradition.
The catalog shows only part of the total range of merchandise. Our dealer list and complete program can be found at www.krieghoff.de.

Krieghoff, Optima, Essencia, “Die Läufe schießen – der Schaft trifft®” (You shoot with the barrel – you hit with the stock) are registered trademarks with effect in Germany or with effect in selected countries outside Germany.

We thank everyone who has helped to create this catalog. Pictured products show variations and special equipment. We continuously work to enhance our hunting guns. We therefore ask for your understanding when we advise that features and technical aspects may not be exactly as those shown in this catalog. Guns may be purchased only by those in possession of a valid firearm permit.
